

# How to Love Me

To keep me looking as new as possible, here are some tips:

You can stick me in the washing machine but go with **Delicate Wash, Cold** and **Tumble Dry on Low!**

Please **do not use bleach**. I would prefer to **skip laundry service** since they are pretty harsh on our specialty fabrics.

I've got a special care instructions tag, so be sure to check that out. Please take special care washing & drying me - heat damage is **not** covered by our Apron Squad Guarantee.

Now, don't you wish all things in life came with care instructions? #TLC

# Pro Tips:

**MACHINE WASH**

**COLD**

**HANG DRY**

**Tumble Dry Low If Necessary.**

**Do not use bleach. Laundry service is not recommended.**

## Fabrics

We use lots of high quality fabrics, some of which are raw (untreated, not pre-washed) and may bleed and fade/patine slightly in their first few wash cycles. Our fabrics are not pre-shrunk and can be expected to shrink up to 1.5" during the first few washes.

## Please Note:

We will not refund/replace a product that is incorrectly cared for per our care instructions.

## Pro Tip:

Tie your waist straps together before throwing them in the wash.
